JULY 4TH, 2013

BUILD PLAYGROUND

It's quite boring around here. Maybe it's a good idea to build a playground here?
25m²
Korenmarkt 1, 9000 Gent

Not going bald yet? Don't pull your remaining hair out, out of frustration! 9K brings better communication between the city and its people, all the time and on every device.

Notify trouble, give tips and help eachother. For example: build a park, notify a pothole, or maybe even help your neighbour's cat who's yet again stuck in a tree? This way, you can help both the city and your friends.

Vote on eachother's proposals and add a small description if you'd like. The highest rated proposals will definitely get a real-life change.

That way you can make life far more comfortable for you and others around.

This app was built at open Summer of Code 2013 and thus completely open source.

SHOW MORE GIVE TIP

Add some green July 3rd
Since we don't have a garden, we always have to walk for half an hour to the nearest park. A bit of green around would be a nice addition!
